REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claims 53, 63, and 73:

providing an incentive to the distributed devices communicating with the server system through the network in response to the **notice to participate** in the configured distributed parallel processing system; and

generating a **workload capability factor** quantifying a workload processing capability for each of the selected distributed devices.

These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

In addition, the Examiner points to Applicant's arguments (arguments on 8/8/05; pp. 6 - 8). Applicant clearly states that the incentive, detailed independent claims 53, 63, and 73, is provided to a client system (distributed device) **in response to a notice to participate** in the distributed parallel processing system. The incentive is provided to a client system in response to the client joining the distributed parallel processing system. The incentive is **not** provided in response to providing computer processing time to the distributed parallel processing system.

Art Unit: 2141

A review of claims 53 - 73, in view of the Examiner's arguments above and in view of Applicant's arguments detailed above, indicates that claims 53 - 73 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
